

Lesson 1: Introduction to Aquaponics 6

Teacher Guide 6

Lesson Objective 6

Lesson Materials 6

Background Information 6

Assessment Answer Key 10

Student Guide – What is Aquaponics? 12

Vocabulary 12

Lecture and Discussion 12

Here is how it works: 14

Activity 14

Conclusion 15

Extensions 15

Assessment 1 – Introduction to Aquaponics 16

LESSON 2: ADDING BACTERIA 18

Teacher Guide 18

Lesson Objective 18

Lesson Materials 18

Additional Materials 19

Background Information 19

Assessment Answer Key 20

Student Guide – Why is bacteria added? 22

Vocabulary 22

Lecture and Discussion 22

Activity 25

Conclusion 26

Extension 26

Assessment 2 – Adding Bacteria 27

LESSON 3: CHOOSING FISH 28

Teacher Guide 28

Lesson Objective 28

Lesson Materials 28

Lecture with Background Information 28

Assessment Answer Key 36

Student Guide – How do we choose the best fish for our aquaponic system? 38

Vocabulary 38

Lecture and Discussion 39

Conclusion 44

Extensions 46

Assessment 3 – Choosing Fish 47

LESSON 4: CHOOSING PLANTS 48

Teacher Guide 48

Lesson Objective 48

Lesson Materials 48

Lecture with Background Information 49

Assessment Answer Key 55

Student Guide – What shall we plant? 57

Vocabulary 57

Lecture and Discussion 58

Extensions 62

Conclusion 64

Assessment 4 – Choosing Plants 65

LESSON 5: SIMULATING SUNSHINE 66

Teacher Guide 66

Lesson Objective 66

Lesson Materials 67

Lecture with Background Information 67

Assessment Answer Key 71

Student Guide – How can we mimic the sun? 72

Vocabulary 72

Lecture and Discussion 73

Activities 78

Conclusion 79

Extensions 80

Assessment 5 – Simulating Sunlight 82

LESSON 6: ADDING WORMS 84

Teacher Guide 84

Lesson Objective 84

Lesson Materials 84

Lecture with Background Information 85

Assessment Answer Key 86

Student Guide – Why do we add worms? 88

Vocabulary 88

Lecture and Discussion 88

Activity 91

Conclusion 91

Assessment 6 – Adding Worms 92
