Aquaponic Gardening: Growing Fish and Vegetables Together
Grow an entire dinner right in your backyard with aquaponics! Safe, healthy fish and organic vegetables with no weeds!
BESTSELLER ★★★★★ 4.3 (714 ratings) 5,307 students enrolled
Created by Sylvia Bernstein Last updated 8/2015 English English [Auto-generated]

What you'll learn
✓ To teach new, inspired aquaponic gardeners in a way that is straightforward and unimidating.

Requirements
• Just a desire to grow your own food

Description
Welcome to Aquaponic Gardening and the fascinating marriage of hydroponics (growing plants without soil) and aquaculture (growing fish in captivity). This course is based on my book, "Aquaponic Gardening: A Step by Step Guide to Growing Fish and Vegetables Together" and is designed to be easy to follow, comprehensive, and fun.

Congratulations! You are now fully registered for this course... forever!

Please see the next page for Hints For a Great Class Experience.

Important: Udemy now requires us to change the password code every 30 days. You may have to change the coupon code as well. If the current month does not work, use the next month in the same format above. For example, SEPTEMBER2019, OCTOBER2019 and so on.

Hints for a Great Class Experience

1. You can now view the class on your i-Phone or iPad if you have iTunes. You can get this free app by searching and installing Udemy Online Course & Classes.
2. Please note that each lesson in this course starts with a 15 second introductory video. You will see the same 15 seconds at the start of each course section.
3. Udemy courses work best with Google Chrome browser.
4. The staff at Udemy handle the technical issues related to the platform. If at any time you have problems with a lecture not loading, try refreshing the page. If that doesn't work, email support@udemy.com with the browser you are using, your operating system, the course title and lecture being affected, and a screenshot of the problem.
